THIS NOTICE DESCRIBES HOW WE MAY USE AND DISCLOSE YOUR PROTECTED HEALTH INFORMATION TO CARRY OUT TREATMENT, PAYMENT OR HEALTH CARE OPERATIONS AND FOR OTHER PURPOSES PERMITTED OR REQUIRED BY LAW. IT ALSO DESCRIBES YOUR RIGHTS TO ACCESS AND CONTROL YOUR HEALTH INFORMATION.

“Protected health information” is information about you, including demographic information (e.g. patient’s name, address, other contact information such as phone numbers and email address, age, gender, and date of birth) , that may identify you and that relates to your past, present or future physical or mental health or condition and related health care services . **PLEASE REVIEW THIS INFORMATION CAREFULLY.**

I. OUR OBLIGATIONS

The MetroHealth System understands that medical information about you and your health is personal. We are committed to protecting the privacy and security of your health information. We create a record of the care and services you receive at our hospital and from our staff. We need this record to provide you with quality care and to comply with certain laws. This notice applies to all of the records of your care created, received, transmitted or maintained by The MetroHealth System, whether made by hospital staff or your personal doctor. This notice will tell you about the ways in which we may use and disclose health information about you. We also describe your rights and certain obligations we have regarding the use and disclosure of medical information.

We are required by law to:

- A. Maintain the privacy of medical information that identifies you.
- B. Give you this notice of our legal duties and privacy practices regarding health information about you.
- C. Follow the terms of the notice that is currently in effect.

II. HOW WE MAY USE AND DISCLOSE MEDICAL INFORMATION ABOUT YOU

The following describes the ways that we use and disclose health information that identifies you.

Except for the purposes described below, we will use and disclose your health information only with authorization.

- A. **For Treatment.** We may use health information about you to provide, coordinate or manage your medical treatment or services. We may disclose medical information about you to doctors, nurses, technicians, medical students, or other hospital staff who are involved in taking care of you at the hospital. For example, a doctor treating you for a broken leg may need to know if you have diabetes because diabetes may slow the healing process. In addition, the doctor may need to tell the dietician if you have diabetes so that we can arrange for proper meals. Different areas of the hospital also may share medical information about you in order to supply the things you need, such as prescriptions, lab work and x-rays. We also may disclose medical information about you to people outside the hospital such as a health care provider who may be involved in your medical care after you leave the hospital, family members, clergy or others we use to provide services that are part of your care.

- B. **For Payment.** We may use and disclose medical information about you so that the treatment and services you receive at the hospital may be billed to and payment may be collected from you, an insurance company or a third party. For example, we may need to give your health plan information about surgery you received at the hospital so your health plan will pay us or reimburse you for the surgery. We may also tell your health plan about a treatment you are going to receive to obtain prior approval or to decide whether your plan will cover the treatment. You may request that we do not share information with your health plan regarding health care services you have received, when you pay for those services in full.

- C. **For Health Care Operations.** We may use and disclose medical information about you for health care operations. These uses and disclosures are needed to run the hospital and make sure that all of our patients receive quality care. For example, we may use medical information to review our treatment and services and to review the jobs done by our staff in caring for you. We may also disclose information to doctors, nurses, technicians, medical students, and other hospital staff for review and learning reasons. We may also combine the medical information we have with medical information from other hospitals to compare how we are doing and see where we can make changes in the care and services that we offer. We may remove information that identifies you from this set of medical information so others may use it to study health care and health care delivery without learning who the specific patients are.

- D. **Appointment Reminders.** We may use and disclose medical information to contact you to remind you of an appointment for treatment or medical care at the hospital.
- E. **Treatment Alternatives.** We may use and disclose medical information to tell you about or recommend possible treatment options that may be of interest to you.
- F. **Health-Related Benefits and Services.** We may use and disclose medical information to tell you about health-related benefits or services that may be of interest to you.
- G. **Fundraising Activities.** We may use medical information about you to contact you in an effort to raise money for the MetroHealth System. We may disclose contact information to a foundation that works with the hospital so that the foundation may contact you when raising money for the hospital. Contact information would include your name, address and phone number, and may include the dates you received treatment or services at the hospital, the department that provided the service, the name of the treating physician and the outcome of your treatment. With each contact, we will provide you with instructions on how to opt-out of receiving any future fundraising material. Also, if you do not want hospital staff or the foundation to contact you for fundraising efforts, specific processes for choosing to not receive fundraising communications will be included with each such communication.
- H. **Hospital Directory.** We may include certain limited information about you in the hospital directory while you are a patient at the hospital. This information may include your name, location in the hospital, your general condition (e.g., fair, stable, etc.) and your religion. The directory information, except for your religion, may also be released to people who ask for you by name. Your religion may be given to a member of the clergy, such as a priest or rabbi, even if they don't ask for you by name. This is so your family, friends and clergy can visit you in the hospital and know how you are doing. You may object to having your information in the patient directory.
- I. **Individuals Involved in Your Care or Payment for Your Care.** We may release medical information about you to a friend or family member who is involved in your medical care. We may also give information to someone who helps pay for your care. We may also tell your family or friends your condition and that you are in the hospital. In addition, we may disclose medical information about you to an entity helping in a disaster relief effort so that your family can be told of your condition, status and location. You may object to having your medical information given to a friend or family member who is involved in your medical care.

- J. **Business Associates.** Individuals or organizations that are not part of the hospital system may provide services related to your care, payment for your care and/or hospital operations. Such services may include things like billing or providing medical devices related to your treatment. We will disclose medical information as needed so the appropriate service can be rendered. We will obtain assurances that these individuals or organizations will also safeguard your information and protect your privacy and the security of your information.
- K. **Marketing.** In most circumstances, we are required to get your written authorization before we use or disclose your Protected Health Information for marketing purposes. However, we may provide you with promotional gifts of nominal value. We will not sell our patient lists, sell Protected Health Information or disclose your Protected Health Information to a third party for marketing purposes where we receive any form of payment without the appropriate written authorization. We may give you information that would encourage you to purchase or use a product that the hospital is currently using. We are not required to obtain your permission if we are giving you a gift of nominal value. If the gift were to involve a direct or indirect payment to The MetroHealth System from a third party, we must obtain your permission that would state such a payment is involved. We are not required to obtain your permission if we are communicating with you face to face. Authorization is required for any disclosure that constitutes the sale of Protected Health Information.
- L. **Research.** Participation in clinical research studies may be an option available to you as a recipient of care here at MetroHealth. Your doctors often are aware of newer treatments that may be available only under research protocols. However, in order to determine whether these treatments are applicable to you, we may need to review your medical records from time to time. Prior to approval, all research protocols must be reviewed by an independent committee to assure, among other things, that the privacy of your medical information is protected. Our doctors and/or hospital-affiliated personnel may view your medical information to determine if a research protocol is practical or to determine whether you would be a candidate for it. The medical information they review does not leave the hospital. Only our doctors and hospital-affiliated personnel will review your medical record and none of your protected health information will be disclosed to third parties without your specific authorization. If it is preliminarily determined that you may be eligible for treatment under a research protocol and that such treatment may be beneficial to you, your doctor or a member of our staff will contact you with further information.
- M. **Psychotherapy Notes.** We may use such medical information in our training program for students, trainees, or practitioners that are learning under supervision to practice or improve their skills in group, joint, family, or

individual counseling. This medical information may be used by the originator for treatment. The MetroHealth System may use this information to defend itself in a legal action or other proceeding brought by or on behalf of the patient. In all other cases, we would have to obtain your permission for use of this medical information.

- N. **As Required By Law.** We will disclose medical information about you when required to do so by federal, state or local law. This may include disclosures to Boards governing the professional practice of health care providers such as the State Medical Board. It also may include registries where we are required to provide information such as the Trauma registry in Ohio. Disclosure of highly sensitive information such as an individual who has taken an HIV test, the results of an HIV test, and the identity of an individual with AIDS will only be released as mandated by law or authorized by the individual.
- O. **To Avert a Serious Threat to Health or Safety.** We may use and disclose medical about you when needed to prevent a serious threat to your health and safety or the health and safety of the public or another person. Any disclosure, however, would only be to someone able to help prevent the threat.
- P. **Right to Get Notice of a Security Breach.** We are required to notify you by first class mail or by e-mail (if you have indicated a preference to receive information by e-mail), of any breach of your Unsecured Protected Health Information as soon as possible, but in any event, no later than 60 days after we discover the breach. "Unsecured Protected Health Information" is Protected Health Information that has not been made unusable, unreadable, and undecipherable to unauthorized users. The notice will give you the following information:
