

The Harold H. Brittingham Memorial Library

ANNUAL REPORT 2021

The Harold H. Brittingham Memorial Library

The Harold H. Brittingham Memorial Library was founded in 1937 to serve the patient care, research, teaching and administrative needs of MetroHealth staff including physicians, nurses, allied health professionals, fellows, residents, and students enrolled in various educational programs conducted by the hospital.

The Library facility occupies approximately 3,000 square feet of space on the second floor of the Rammelkamp Center for Education & Research.

Robert S. Brittingham	John Lozier, M.D.	

The Year in Review

The year 2021 marked the 84th year of service for the Brittingham Memorial Library.

The Brittingham Library

Overview of the print journal reduction

Dr. Akram Boutros confirmed that the Brittingham Library will relocate to the ground floor of Rammelkamp in 2024 from its current location on the 2nd floor. In anticipation of the move and a reduction of space the Library staff has started to weed the print collection in 2021.

Meetings and Educational Activities

Committees/Professional Organizations

In 2020, Chief Librarian, Laura Frater, attended the regularly scheduled meetings of the following:

- Continuing Medical Education Committee
- Professional Affairs Office Manager and Coordinator Meetings
- Chief Librarian holds the following professional Association membership:
 - Medical Library Association (MLA)
 - Medical Library Association, Midwest Chapter (MCMLA)
 - Medical Library Association, Hospital Section
 - Medical Library Association of Northeastern Ohio (MLANO)

Library Orientation

The Chief Librarian, Laura Frater, gave 29 outreach presentations on the electronic resources and services available from the Brittingham Library to the following groups in 2021:

- Anesthesiology
- Baldwin Wallace University-The MetroHealth System (BW-MHMC): Master of Public Health (MPH) Program:
- Medicine-Pediatrics
- Nursing
- Pathology
- Surgery
- Trauma

Library Board of Directors

Meetings

The full Brittingham Memorial Library Board met via WebEx video conferencing software on the following days in 2021:

- February 2, 2021
- April 8, 2021
- June 3, 2021
- August 5, 2021
- October 10, 2021
- December 2, 2021

Minutes of the Board meetings are on file in the Library.

The Brittingham Memorial Library Executive Committee met on the following days in 2021:

- January 7, 2021
- March 3, 2021
- May 5, 2021
- July 14, 2021
- September 8, 2021
- November 3, 2021

Election of Officers and Trustees

Officers and Directors were elected at the December 3, 2020 Brittingham Library Board meeting.

Officers for 2021: President, David Kaelber, M.D.; Vice-President, Lisa Ramirez, Ph.D.; Treasurer, Christine Dziedzina, M.S.L.S.; Secretary, Laura Frater, M.L.I.S.

Director elected to serve for term ending 2023: Maureen Dee, M.S.S.A.; Dennis M. Super, M.D.; J. Daryl Thornton, M.D.; Joseph F. Tomashefski, Jr., M.D.

Longtime Library supporter and Lifetime Director, Sally Stecher Hollington, pass away on August 15, 2021 at the age of 88 years old. She was the daughter of Robert M. Stecher, MD, a rheumatologist at the hospital from 1925 until his death in 1972. Dr. Stecher was the founder of the Harold H. Brittingham Memorial Library.

Committees

In 2021 two new committees were added to the board in addition to the Finance Committee and Nominating Committee. The new committees are the Marketing and Communication Committee and the Liaison's Committee.

Vision and Mission statement

The Library's Vision and Mission statements were revised in 2021:

Vision:

The Brittingham Memorial Library will be MetroHealth's flagship resource for high value programming and support of information and informational resources for MetroHealth staff and learners.

Mission:

To facilitate access to and use of information and informational resources to support patient care, research, teaching and administrative needs of the MetroHealth System.

Strategic Planning with The MetroHealth System

The Brittingham Library 5-year strategic planning was completed 2021 after completion of targeted interviews, a survey that was open to all employees, and a retreat on April 15, 2021. The 5-year strategic goal states: in concert with the transformation of The MetroHealth System, the Brittingham Memorial Library will evolve to ensure continued high value support to all clinical staff and learners. The strategic planning document and action items document can be downloaded from the Library's <https://www.metrohealth.org/education/library> page.

Library Tax Reports

Library Tax Reports were filed in time to meet the deadline of May 15, 2021. Andrew Henton from Henton and Associates assisted with the preparation of the tax report.

Library Annual Campaign

The Library campaign letter for the 2020-2021 campaign was written, and 1,552 letters were mailed out on November 16, 2020. The invoice was paid with the remaining money from the Foundation fund for Library (\$1,805.65). The Library received \$8,145.00 from 86 contributions with an average contribution of \$94.71. Of the contributions received, \$2,960.00 was for membership in the Brittingham Library and the remaining \$5,085 was donation to the Trust held in the Library's KeyBank checking account. In October the Chief Librarian met with Michelle Wood and Tracey Kastelic from the MetroHealth foundation about electronic donations for our annual campaign. They suggested applying for a free Give Lively account which would allow the Library to collect electric donation. A Give Lively account will be created, and a link added to the Library's webpage on metrohealth.org for 2021-2022.

Brittingham Library Endowment

The Library began transferring funds from UBS Financial Services to Vanguard Wellington Admiral Fund on March 8, 2021. The Vanguard account is electronically connected to the Library's KeyBank checking account and money can be moved easily between the two accounts.

Oral History Project

From around 2004-2009 under the direction of Clyde L. Nash, Jr., M.D. and Richard Fratianne, M.D. an oral history project was launched to document and preserve the hospital's evolution over the past century. The process of converting the interviews to a digital format to make them available to a wider audience began in 2021.

Glossary

TERM	DESCRIPTION
CINAHL	The CINAHL (Cumulative Index to Nursing and Allied Health Literature) database provides references to nursing and allied health literature. It also contains some additional nursing materials not indexed by PubMed. CINAHL provides full text for hundreds of nursing and allied health journals indexed in the CINAHL database.
Circulation	The lending of library materials (books, journals, and other material) to library patrons.
ClinicalKey	ClinicalKey is a clinical search engine from Elsevier that includes full text medical textbooks, medical journals, images, videos, First Consult content and much more.
COUNTER	Launched in March 2002, COUNTER (Counting Online Usage of Networked Electronic Resources) is an international code of practice used to measure the usage data in a consistent way.
COUNTER Searches_Platform	A COUNTER Metric Type used to report searches conducted on a platform. Note: Searches conducted against multiple databases on the platform will only be counted once. https://www.projectcounter.org/appendix-glossary-terms/
COUNTER Total_Items_Investigations	A COUNTER Metric_Type that represents the number of times users accessed the content (i.e. full text) of an item, or information describing that item (i.e. an abstract). This also counts every click where a user downloads the full content of an item (article, table of statistics, etc) from a database. But, in addition, it counts clicks on other information (abstracts, etc) and clicks on links to other details like clicks on link resolvers. https://www.projectcounter.org/appendix-glossary-terms/
COUNTER Total_Item_Requests	A COUNTER Metric_Type that represents the number of times users requested the full content (i.e. full text) of an item. Requests may take the form of viewing, downloading, emailing, or printing content, provided such actions can be tracked by the content provider's server. https://www.projectcounter.org/appendix-glossary-terms/
COUNTER Unique_Item_Investigations	A COUNTER Metric Type that represents the number of unique Content Items investigated in a user-session. This counts clicks on information and clicks to download. But again, it only counts one click per item per session. If the user clicks on two pieces of information about the same item in a session (for example), only the first click is counted. https://www.projectcounter.org/appendix-glossary-terms/
COUNTER Unique_Item_Requests	A COUNTER Metric Type that represents the number of unique content items requested in a user-session. Examples of items are articles, book chapters, and multimedia files. This counts clicks to download the full content of an item (article, etc). However, it only counts one click to download per item per session. If the user downloads the same item two times or more in a session, only the first click is counted. https://www.projectcounter.org/appendix-glossary-terms/

COUNTER Unique_Title_Investigations	A COUNTER Metric Type that represents the number of unique titles investigated in a user-session. Examples of titles are journals and books. This also counts clicks to download the full content of a book, but it also counts clicks on information about a book or a section of a book. Again, it does not count repeated clicks on the same book in the same session. So, if the user clicks to view information on Section 1, then clicks to view information on Section 2, and finally clicks to download the full content of Section 2, only the first click is counted https://www.projectcounter.org/appendix-glossary-terms/
Interlibrary Loan	InterlibraryLoan (ILL) is service in which the Library borrows material (journal articles, books, book chapters, etc.) that are owned/available from a lending library or supplies material to another library. Some libraries charge for materials while other libraries do not.
Items Cataloged	A unique description of each item in the Library's collection will be provided to assist library user in determining what is available in the library and where materials are located. The Brittingham Memorial Library currently uses SydneyPLUS for its OPAC (Online Public Access Catalog), and for its cataloging management system. Items that are cataloged include but not limited to the following: books, study materials, CD-ROMs and DVDs.
Journal Issues Received/Checked-In	A count of the print journal issues that were received via mail and recorded in the Kardex file.
Library Presentations	Upon request, formal Library orientation programs to learn about the Library and how to use it are conducted by the Chief Librarian. These presentations include descriptions of Library services and instruction on the databases provided by the library (PubMed, OvidSP, Nursing @ Ovid, CINAHL, ClinicalKey, and UpToDate). Informal tours of the Library and database tutorials are given as needed.
OvidSP	The Medline database can be accessed through OVIDSP. This platform also provides access to several full text journals and a database called Nursing@Ovid. The Nursing@Ovid database provides references to nursing articles and access to 14 full text nursing journals.
Photocopies/PDF Articles	Patrons requesting articles that cannot be obtained electronically are copied by the Library staff and sent as a PDF document via email.
Searches & Reference Transactions	Reference Transactions are information interchanges that require the knowledge, use, recommendations, interpretation, or instruction in the use of information resources by a library staff member in order to meet an individual's information need(s). Information resources include the following: PubMed, OvidSP, ClinicalKey, UpToDate, Nursing@Ovid, CINAHL, electronic/print journals, electronic/print books, and the internet. Reference transactions cover a wide range of topics or database tutorials and typically take anywhere from a few minutes to a few hours to complete. An average database search takes about one hour to complete.
UpToDate	UpToDate is specifically designed to answer the clinical questions that arise in daily practice and to do so quickly and easily so that it can be used right at the point of care. This database also features a drug database/drug interaction database, medical Calculators, a "What's New" section, and patient information.

Library Floor Plan

Brittingham Memorial Library
Approximately 3,000 Sq. Ft.

Office of Opioid Safety
Approximately 6,000 Sq. Ft.
