

## MetroHealth Summer Internship Program

A 10-week, full-time, paid internship program offers students meaningful and immersive learning experiences and mentorship opportunities. Interns can work in a variety of hospital operational areas to support exciting system projects.

Student interns will have the opportunity to gain healthcare management experience at one of the largest, most innovative public health systems. MetroHealth is currently amid an exceptional Campus Transformation and is also a recognized academic medical center.

**June – August 2022**

(With the opportunity for extended internships into the school year)

Seeking students in Bachelor's and Graduate Degree Programs

Candidates should have a strong interest in healthcare administration, have strong communication skills, project management skills, and be highly self-motivated.
