4 MODULES / 4 CEs

## INTRODUCTION TO SUBSTANCE USE DISORDERS

*An opioid education program designed to support registered nurses caring for patients with opioid use disorder.  
This program meets accreditation standards and employer requirements.*

### ABOUT

This online education aims to support nurses in all settings to improve screening, interventions and care coordination services to those in need of specialized addiction treatment.

These self-directed and flexible courses, developed in conjunction with healthcare professionals from our Opioid Consortium membership, have a **90% satisfaction rating** and over 88% of participants surveyed said they feel more prepared to care for SUD/OD patients after taking the courses.

### TOPICS FOR THIS SERIES INCLUDE:

- ☒ Screening, intervention and referral to treatment
- ☒ Nursing interventions and treatment options
- ☒ Caring for complex medical patients with co-occurring disorders
- ☒ Managing difficult behaviors exhibited by patients, family members and visitors

### REGISTER AT

**[opioidconsortium-education.org](https://opioidconsortium-education.org)**

Access provided free of cost,  
courtesy of your employer.

### FREE ACCESS

Take the courses from the comfort of  
home or while you're at work.
