What information we collect

Information you give us
We collect and store information you provide directly to us, such as when you create or modify your account or user preferences, sign up for a newsletter, contact us, respond to a survey, or otherwise communicate with us. This includes information you submit on forms, such as appointment request forms. Some forms collect sensitive information, such as health information, necessary for us to provide services to you. This information may include your name, email address, phone number, postal address, insurance information, personal health information (which, to the extent it is considered Protected Health Information under HIPAA, shall be subject to the MetroHealth Notice of Privacy Practices) survey responses, user content stored or entered into the forms found in our online platforms, and other information you choose to provide through use of our online platforms.

Rev. March 2021
How we use the information we collect

The information you provide to us will be used to:

- Set up your account (if applicable)
- Provide you with information described below, unless you tell us not to
- Improve the Site and online platforms
- Respond to your inquiries
- Facilitate your job application

We will not use your information for any purposes other than as described in this Notice or explained to you at the point at which the information was collected.

Email communications, newsletters and related services

MetroHealth communicates with you through newsletters, mailings, email, or other means about treatment options, health-related information, disease management programs, wellness programs or other community-based activities in which MetroHealth participates.

Email communications that you send to us via the email links on our Site may be shared with a customer service representative, employee, medical expert or agent that is most able to address your inquiry. We make every effort to respond in a timely fashion once communications are received. Once we have responded to your communication, it is discarded or archived, depending on the nature of the inquiry.

The email functionality on our Site does not provide a completely secure and confidential means of communication. It's possible that your email communication may be accessed or viewed by another Internet user while in transit to us. If you wish to keep your communication private, do not use our email.

Surveys

We occasionally survey visitors to our Site. The information from these surveys is used in aggregated, de-identified form to help us understand the needs of our visitors so that we can improve our Site. The information may be shared with third parties with whom we have a business relationship. We generally do not ask for information in surveys that would personally identify you; if we do request contact information for follow-up, you may decline to provide it. If survey respondents provide personal information (such as an email address) in a survey, it is shared only with those people who need to see it to respond to the question or request, or with third parties who perform data management services for our Site. Those third parties have agreed to keep all data from surveys confidential.
