

## Pilot Award Consult Meeting Outline

Date of Consult:

Introductions

Core Staff Attending:

Applicant Name and Title:

Project Title:

Background & Overview:

Do you have any research experience? If so, can you give a short description of your past role in research??

What are your research areas of interest?

Do you have a faculty mentor?

Give us your 2 minute elevator speech about your research idea.

Statement of the Problem:

Study Aim:

Study Sample:

Method:

Analysis:

How does this project relate to population health?

Is this a resubmission? Yes No

How did you address reviewer critiques?

Logistics:

- Do you think this research project can realistically get off the ground and completed within one year's time?
- Have you started your IRB application?
- What plans do you have for this project once the funding cycle is over?
- Would you be able to commit to monthly PHRI Pilot Grant Research Meetings?
- What barriers do you see to completing your research?
- What resources would be most useful in order to complete your project?

Next Steps and Recommendations:
