EDUCATIONAL AFFILIATIONS

Beginning January 1, 2018, The MetroHealth System will have Advanced Practice Registered Nurse program affiliation agreements with only the schools listed below:

Case Western Reserve University
East Carolina University
Kent State University
Ohio University
University of Akron
University of Cincinnati
Ursuline College

Applications for clinical hours at The MetroHealth System will only be accepted from these schools.

Special note: If you are an employee of the The MetroHealth System enrolled in the Chamberlain College of Nursing Nurse Practitioner program, you may complete clinical hours at MetroHealth with that program until December 31, 2019.

OBTAINING A PRECEPTOR

We do not arrange preceptors for you. You and/or your school are responsible for making these arrangements. Please visit our Graduate Medical Education website, gme.metrohealth.org, choose “APRN Education” under the “Programs” heading at the top of the page, then choose “Clinical Experiences.” There you will find a list of APRNs who are willing to act as preceptors along with the experience they offer. Contact the specific department and request to speak directly to the APRN about a possible experience with them.

ONLINE APPLICATION

Once you have found a preceptor and they have confirmed that they are able to take you for the semester you are requesting, you must apply online at http://www.metrohealth.org/APNstudent. DO NOT APPLY ONLINE IF THE PRECEPTOR HAS NOT AGREED TO TAKE YOU.

If you have more than one preceptor, you can complete one application for a specific semester and list multiple preceptors on the same application. You must reapply for every semester that you would like to do a clinical rotation here.

We understand that each school has a unique schedule. Our application deadlines (listed below) apply, regardless of your school's calendar year/schedule. APPLICATIONS WILL NOT BE ACCEPTED BEYOND THE DEADLINE DATE. THERE WILL BE NO EXCEPTIONS.

Please apply for the semester that the start date of your clinical rotation falls within. You may apply up to one year in advance of your expected clinical rotation.
