

**THE METROHEALTH SYSTEM
FACILITIES & SPACE COMMITTEE
BOARD OF TRUSTEES
REGULAR MEETING MINUTES**

DATE: Monday, March 25, 2019

TIME: 4:00 p.m.

PLACE: MetroHealth Medical Center
SG-103, Center for Campus Transformation

COMMITTEE TRUSTEES: Mr. Monnolly, Mr. McDonald, J. Hairston, Jr.

STAFF: A. Boutros, W. Jones, Dr. Brandt, B. Boulanger, J. Platten, K. Dethloff,
Laura McBride (on behalf of Sonja Rajki)

(ABSENT): Ms. Dee, M. Phillips, C. Richmond, J. Jacono, M. Stern,

GUESTS: Sarah O’Keeffe, Marvin Daniels

Mr. Monnolly called the regular meeting of the Facilities & Space Committee to order at 4:10 p.m. The minutes are written in a format conforming to the printed meeting agenda for the convenience of correlation, recognizing that some of the items were discussed out of sequence.

I. APPROVAL OF MINUTES – NOVEMBER 26, 2018 MEETING

The minutes of the November 26, 2018 Facilities and Space Committee were approved as presented.

II. DISCUSSION ITEMS

- A. Ms. Dethloff provided an update on the status of the Facilities Report to the Board. Ms. Dethloff reported on the water main break that occurred on W. 14th which caused the hospital to lose water pressure to all buildings except the boiler plant. The Water Department was able to isolate the break and restore water pressure. There were numerous electrical outages during the last three months due to unusually strong winds.

Promotions within the Facilities department consisted of Tony Johnson, Manager of Facilities Compliance, passed his Certified Healthcare Facilities Manager test on the first try. This is a challenging and comprehensive test with a <35% pass rate on the first try. On March 18, a new Cleveland Heights Hospital Facilities Manager, Darren Dickson, started, and on March 29 a new Director of Facilities Construction, Tom Moenich, will start. Our Facilities Manager at our Parma Hospital accepted a promotion at another hospital; recruiting is in process. Currently, there are four other manager vacancies. The vacancy rate remains low at 5.2%.

- B.** Ms. O’Keeffe Director of Sustainability, presented an abbreviated summary of the last year of sustainability program's progress, including the creation of an internal Sustainability Advisory Council comprised of leaders from across MetroHealth who prioritized and outlined goals that align with Practice Greenhealth benchmarks in 11 focus areas.

The Sustainability Office gathered data from across the system to benchmark MetroHealth Medical Center nationally against its peers. These slides show how MetroHealth Medical Center performed in 2018 in the areas of landfill waste reduction, energy use reduction and water use reduction as compared to various benchmarks from Healthier Hospitals (entry-level goals for new sustainable healthcare programs), Practice Greenhealth (medians and 90th percentile for mature sustainable healthcare programs), and green building guidelines the new hospital will follow. Sustainability goals set by the Sustainability Advisory Council will be refined during 2019 to have specific targets and firm timelines.

MetroHealth is already on the path to pursue impactful leadership opportunities in sustainable healthcare, including a continued commitment to the EcoDistricts, WELL and LEED certification processes for the Campus and community transformations, Environmentally Preferable Purchasing, Healthy Transportation initiatives and joining the Health Care Climate Challenge through Health Care Without Harm.

- C.** Mr. Jones provided an update on the status of the progress on the Transformation Project and Project Summary.

The Campus Transformation Project is on schedule and on budget. Since the last committee meeting the demolition of the Southpoint garage connector bridge occurred on December 12th, and the demolition of the Southpoint garage occurred on December 17th. In February, site clearing, View Rd construction, and storm water and detention tank installation began. Currently, the installation of storm water detention tanks has been completed, and mass excavation for site shoring and CUP has commenced. On March 15th, 2019, the project received final design approval for the hospital tower.

The Transformation website (<https://www.metrohealth.org/transformation>) has been enhanced, and now shows updated images of the exterior and interior of the hospital, a new video animation giving a tour of the facility, and links to the three live webcams around the construction site.

The second GMP (GMP B) is scheduled to be brought to the Facilities Committee and the Board in May for approval. The scope of work will include the exterior enclosure, exterior mock ups, roof, pneumatic tubes and vertical transportation.

Mr. Jones indicated key dates for the project’s next steps: The transition planning engagement with HTS to define and identify to scope of the transition planning that will be needed for the project, including, schedule, cost, and extent of internal resources that may be needed will take place on March 26, 2019. The Campus Transformation Groundbreaking Ceremony will take place on April 15, 2019. The MetroHealth Stakeholders Meeting is scheduled for June 28, 2019. And the GMP C is scheduled for July 2019.

III. CONSENT ITEMS

- A.** Recommendation to the President and CEO of The MetroHealth System to approve the further amended Construction Manager as Constructor Agreement with Turner Construction Company as the Construction Manager at Risk for Campus Transformation

The Committee approved the recommendation for full Board action.

- B.** Recommendation to the President and CEO of The MetroHealth System to approve the further amended Architectural and Engineering Services Agreement with HGA Architects and Engineers, LLC as the Master Architect for Campus Transformation.

The Committee approved the recommendation for full Board action.

- C.** Recommendation to the President and CEO of The MetroHealth System to approve the Selection of Pre-Authorized Professionals.

The Committee approved the recommendation for full Board action.
